Texas State Operations Center

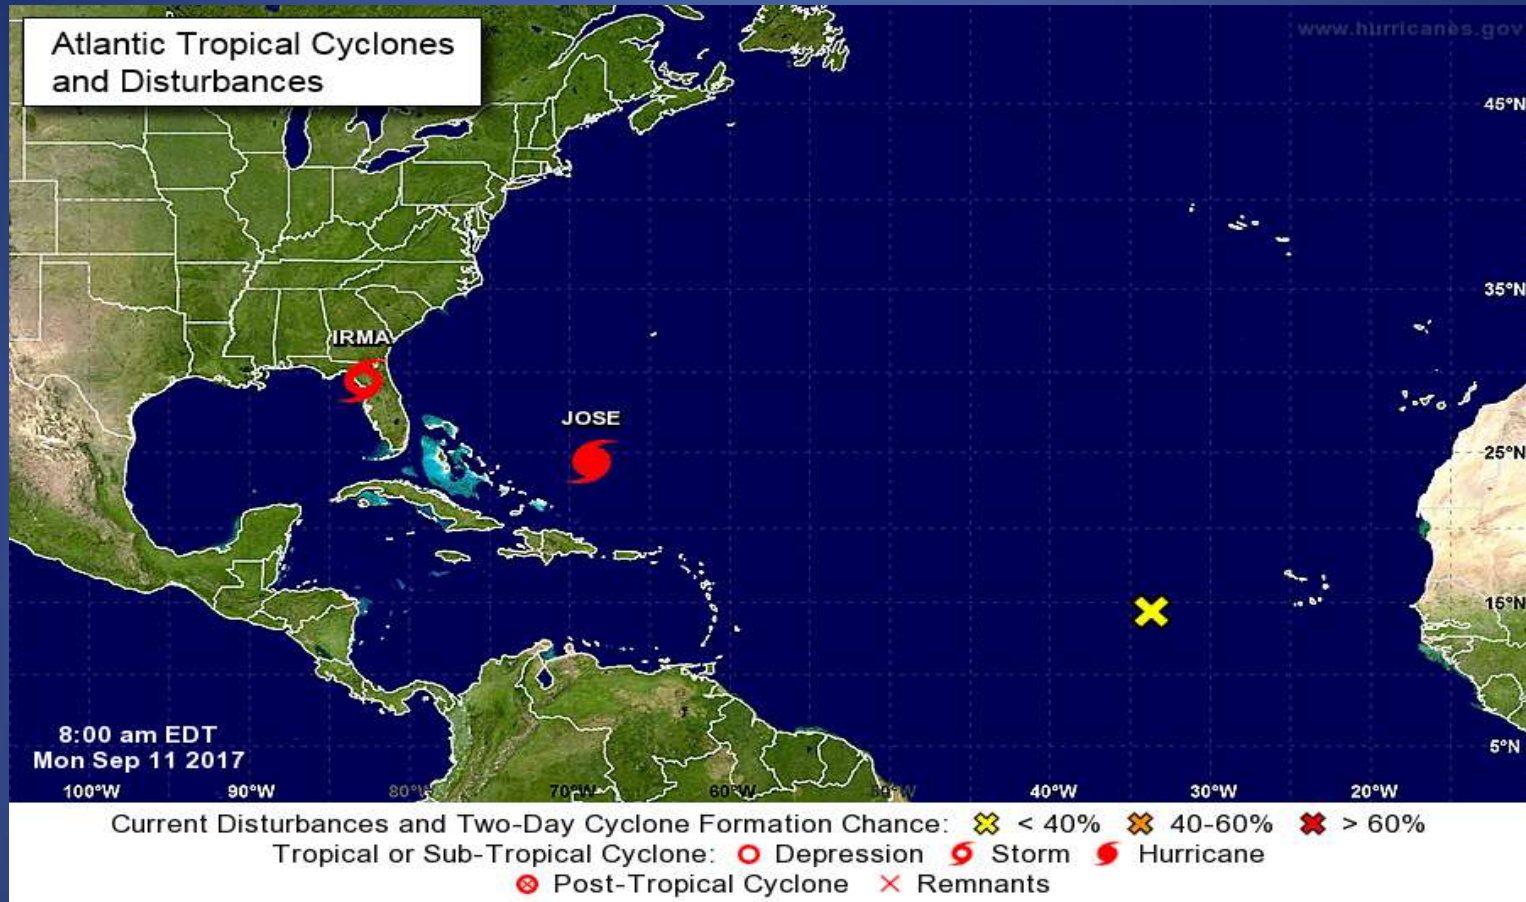

Situation Awareness Brief

**Monday , September 11th 2017
As of 0900 CST**

Tropical Weather Awareness

The National Hurricane Center is issuing advisories on Hurricane Irma, located inland over north-central Florida. The Weather Prediction Center is issuing advisories on Hurricane Jose, located a couple of hundred miles northeast of the Turks and Caicos Islands. A tropical wave located several hundred miles west-southwest of the Cabo Verde Islands continues to produce disorganized showers and thunderstorms. Some development of this system is possible during the next couple of days before upper-level winds become unfavorable for tropical cyclone formation. This system is expected to move west-northwestward for the next two days and then turn northward over the central Atlantic. * Formation chance through 48 hours...low...30 percent. * Formation chance through 5 days...low...30 percent.
